

ET202

TURBINE BLOWER

VENTRAC

- Out Front Visibility
- 360° Hydraulic Nozzle Rotation
- Fastest Way To Clear Leaves
- Operates On Soft Turf

TURBINE BLOWER

Model	ET202
Stock Code	39.55340
Hydraulic Nozzle Control	360 degrees
Nozzle Size	12 inches (31 cm)
Speed out of Nozzle*	175 MPH (282 KPH)

* Based on 3650 engine RPM

Dimensions

Length	70 inches (178 cm)
Width	27 inches (69 cm)
Height (nozzle turned down)	34 inches (86 cm)
Height (nozzle turned up)	47 inches (119 cm)
Weight	256 lbs (116 kg)

All specifications subject to change without notice or obligation

STANDARD FEATURES

- One-Piece Aerospace Polymer discharge nozzle
- Flat Free Tire
- High Volume Air Flow
- Nozzle Rotation controlled hydraulically from the tractor seat
- 360 degree nozzle rotation
- Built-In Bumper
- Ventrac Mount System

OPTIONAL ACCESSORIES

- Optional L.E.D. light kit

The Ventrac ET202 makes quick work of any clean up job. The Turbine Blower is designed to blow large volumes of air. The ET202 can be used to blow leaves, light snow, and remove debris from sidewalks, parking lots and other areas.

The ET202 Turbine Blower's powerful front discharge nozzle can be hydraulically rotated 360 degrees from the comfort of the operator's seat. When the nozzle is pointed downward, it's a perfect position for cart paths and areas where a wider path needs cleared. The nozzle can also be pointed upwards to remove leaves from trees, or out to either side. The front bumper protects the nozzle from damage.

Power and control allow you to move through your clean up work simply and efficiently. The Ventrac Mount System allows you to get attached quickly, and move on to the next job.

Flat Free Tires

The tire cushions and gives a ride similar to an air tire, but without the worry of tires going flat.

One-Piece Aerospace Polymer Discharge Nozzle

The discharge nozzle is made of a one-piece polymer design. It provides excellent air flow and can be rotated 360 degrees for maximum efficiency.
